

**IRO Certificate #4599**

**NOTICE OF INDEPENDENT REVIEW DECISION**

June 14, 2002

**Re: IRO Case # M2-02-0655-01**

Texas Workers' Compensation Commission:

\_\_\_ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule 133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IRO's, TWCC assigned this case to \_\_\_ for an independent review. \_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, \_\_\_ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Neurological Surgery. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to \_\_\_ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The \_\_\_ reviewer who reviewed this case has determined that, based on the medical records provided, the requested care is medically necessary. Therefore, \_\_\_ disagrees with the adverse determination regarding this case. The reviewer's decision and the specific reasons for it, is as follows:

Brief History

This case involves a now 41-year-old female who on \_\_\_ was grabbed by the neck, and developed pain in her neck. The patient had an extensive workup including MRI, CT scanning and electro diagnostic testing, but nothing was found of surgical significance. The patient has been taking pain medications and muscle relaxants for about the last ten years.

Requested Service

Cervical MRI

Decision

An MRI is medically indicated.

Basis for Decision

The patient is experiencing pain which could be secondary to surgical pathology, and could indicate possible fresh disk herniation or spondylotic radiculopathy.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.

**YOUR RIGHT TO REQUEST A HEARING**

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.

**If disputing a spinal surgery prospective decision**, a request for a hearing must be in writing and it must be received by the TWCC Chief Clerk of Proceedings within **10** (ten) days of your receipt of this decision (28 Tex. Admin. Code 142.5(c)).

**If disputing other prospective medical necessity (preauthorization) decisions** a request for a hearing must be in writing and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) days of your receipt of this decision (28 Tex. Admin. Code 148.3).

This decision is deemed received by you 5 (five) days after it was mailed (28 Tex. Admin. Code 102.4(h) or 102.5(d)). A request for a hearing should be sent to:  
Chief Clerk of Proceedings, Texas Worker's Compensation Commission, P O Box 40669,  
Austin, TX 78704-0012. **A copy of this decision should be attached to the request.**

The party appealing this decision shall deliver a copy of its written request for a hearing to all other parties involved in the dispute (Commission Rule 133.308 (t)(2)).

Sincerely,

---

President
